

IN THE SPECIFICATION

The Office has requested a substitute specification because the specification “is replete with grammatical errors and a substitute specification is required.” Applicants have complied. However, the Office has failed to point out even one error. Applicants have complied as best as possible and in good faith while abiding the prohibition on new matter. The substitute specification also accounts for material added by preliminary amendment prior to the present Office Action. No new matter has been added.

A marked-up copy and clean copy are herewith provided.
